## No Foundation for the Rumors of Objection to Local Golf Links

### CHEYY CHASE NOT WORRIED BY TALK OF GOTHAM WOMAN

Protest Against Its Links Has No Real Foundation.

By THOMAS S. RICE.

Stories were published this morning in the New York World and New York Tribune to the effect that the womer golfers of the East were thoroughly disgusted with the action of the United States Golf Association in selecting the Chevy Chase Club links of Washington for the women's national tournament.

Yes, indeed, the ladies were so vexed that they were even talking of forming a brand new association all of their wn and holding a cunning little tourna ment somewhere else. The stories were obviously from the same source, and had all the earmarks of being written by the same person. Also, it looked like a needy space writer had turned ar honest penny from two papers by workng off on them the story of a woman's

No Reasons Given.

Not a word was said in either story about why the petulant females did not want to come to Chevy Chase. There was no mention of lack of accommodations, of poor links, or shyness on hos pitality. The only reason advanced for the outburst of spleen was that the Eastern women wanted to go to the Philadelphia Country Club and were angry because they had been outvoted by the Western contingent, which want ed to kill two birds with one stone by ed to kill two birds with one stone by playing at Chevy Chase and taking in the sights of Washington the same trip. Why the Eastern women should object to their sisters looking over the curiosities in our beautiful city does not appear. Possibly they thought they might be contaminated by a sight of that horrid bar in our new and chilly Union Station.

Mr. Britton Explains It.

Among those not impressed or de-pressed by the blast of the New York 11act writer and his source of informaion is Alexander Britton, of the Chevy Chase Club, and vice president of the United States Golf Association, who was largely responsible for Chevy Chase landing the tournament. Mr. Britton was bearing up bravely this morning under the wrath of the indignant Gotham female, and when questioned about the matter spoke substantially as

about the matter spoke substantially as follows:

"There is nothing serious in that tale. All the objection comes treat three or four women around New York who have been telling the U. S. G. A. for years what it should do. This year we decided to do a little thinking for ourselves, and as Chevy Chase had a good right to the tournament, I insisted that it should come here. Which it will. The whole thing has been greatly exaggerated, and there is no general revolt at all against the decision in favor of the Washington links. On the contrary, ever since it was announced that Chevy Chase would get the tournament we have been receiving friendly inquiries from the women goifers about the accommonations, links, and other particulars and assuring us that we would have the usual good oentry list.

President Taylor, of the Boston club,
was so anxious to get Jack that he
accepted without hesitation the almost
prohibitive price put on the crack outtielder by the Toronto management.
Thoney it seems, was offered only tielder by the Toronto management.
Thoney, it seems, was offered only \$2,500 for the season by the Boston club, and when his friends and neighbors learned that it would cost the Boston club such a pile of money for him advised him to hold out for a big salary. A change in the money offered may serve as a wonderful medicine for Thoney's ills and a splendid elixir for his sore arm.

Even in its early stages Catarrh is a most distressing ailment, caused by the stuffy feeling in the head, ringing noises in the ears, watery eyes, difficult breathing, continual " hawking and spitting," etc., but when the blood becomes thoroughly saturated with the impurities which produce the disease it becomes a serious and often dangerous disorder. Then the bronchial tubes are attacked, the bladder and kidneys diseased, and often the lungs become affected by the constant passage of impure blood through them and Catarrh terminates in Consumption. The impurities and poisons in the blood which produce Catarrh can never be removed through the use of sprays, inhalations, washes, etc. Such treatment cannot reach the real cause, and their use alone should never be depended on to cure the disease. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, purified blood is carried to all parts of the system the symptoms gradually leave, the health is improved, and S. S. S. makes a permanent cure of the trouble.
